_ IN A NUTSHELL

I love learning, and sharing what I learn. My journey began with video games in cooperative mode on windows 95 with my father. Then, I went to mobile and web development. More recently, I found myself a true passion for IT security and ethical hacking and I often participate in CTFs with the team Aperi'Kube. Aside from IT, I like spending hours in parks, with a guitar, a slackline and few close friends. I'm also spending a lot of time on my other passion, Hang-gliding.

_ EXPERIENCES

Security Trainings & Pentest | OffenSkill - Remote, FRANCE — 2022 — Current
- Web Hacking hands-on trainings, from beginner to state-of-the-art web exploitation
- Web & Cloud Pentest, security code review, security practices advisor

Ethical hacker | ManoMano - Remote, FRANCE — 2022 — Current
- Continuous Pentest on external and internal infrastructure, code review, staff training
- Security Tooling and Automation: K8s, Gitlab-CI, Kong, Sqreen, Datadog, Cloudflare

Pentester | Lexfo - Paris, FRANCE — 2019 — 2022
- Web application, Infrastructure, and Mobile audits.
- Intrusion tests on various topics and security code review.

Product Security Engineer | Datadog - New-York, USA — 6 months — 2019
- Part of the Product Security team in Datadog : Modern monitoring & analytics.

Signal process (C++) | Febus-Optics - Valence, FRANCE — 6 months — 2018
- Creating a software based on ParaView to let users configure an optical fiber sensing device, start measures, process data, and visualize it to monitor the structure.

VOIP security (python) | Fingerprint - Romans, FRANCE — 2 months — 2017
- Development and implementation of python scripts invoked by an implementation of
- RADIUS(AAA), used to prevent mass attacks + IP phone billing system.

Pentester | ITB & IBM - IRELAND — 2 months — 2016
- Creating vulnerable systems to simulate a hackable city. Virtual Machines that are now used by ITB and IBM for pentesting initiations and hacking contests (CTFs).

_ FORMATION

- Engineering school Esisar-2019
- English : TOEIC 960/990
- Scientific Baccalauréat (AB)
- Tandem hang-gliding pilot
- French driving license

_ SKILLS

- French : Native language
- Spanish, LSF : Notions
- Communicate easily
- Self-taught

Experienced with :
Pentesting | Python | Java | C | C++ | Android | Html | Css | Javascript | Php | SQL | Git | Go

Pentest :

Binary exploitation | Network | Reverse engineering | Forensic | Web (client/server) | Misc | Steganography | Red-team

Familiar with :
C# | Swift | Ruby | Corona | Cordova | Lua | Phonegap | Haskell | Django | React | Symfony | Angularjs | Ionic | Rails | DeepWeb | Qt | Bootstrap

Systems : Linux (Arch, Deb, ...) | Windows | Mac | Android | Ios
